 Pads ordered - Sponsored by Foodbank / Church.

**6 pads required at a cost of  
£35.00 each + Vat and  
delivery . Last invoice totalled  
£88.80 inclusive. (March 2021)**

**So Total should be less than  
£266.40**

**Although pads have expired they are useable for another month.**

From 2012 the consumables have been either purchased by private donations or by The Community Heartbeat Trusts.

All the other Parish Councils that have Defibrillators pay for batteries and pads.

I am happy to continue to check them and send the report to SWAST via CHT.

Hopefully in the near future Malmesbury Community Transport Ltd. Will donate their Defrib to the town, with a new cabinet and consumeables . This will be located in the White Lion Park area.

Malmesbury League of Friends have order to purchase another two units and cabinets. I am suggesting these are situated in Reeds Farm and Avenue Gien Estates. Locatations to be decided.

There will still be areas NOT covered within the town.
