

Barrel Planters

1. Purpose of the report

- 1.1 To notify members that some half barrel planters require replacing and the options that are available.

2. Background

- 2.1 Tub Planters purchased previously had always been wooden, in the region of £45 each.
- 2.2 Now that Winter planting is a regular event, the longevity of the wooden planters is decreased as they are in use constantly.
- 2.3 There are wooden effect planters available that are fully recyclable at their end of life, these are £99.99 (for the same size)

3. Financial Implications

Six new planters are needed, the prices are detailed at 2.1 and 2.3.

4. Decision required

Whether to purchase plastic or wooden planters
